4 Liger	Sue	Sue	Sue	0		70				Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. 13 Daniel	Sue	Sue	Sue	0		70				COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

SPECIAL INQUIRIES RELATING TO INDIANS.

OTHER NAME, IF ANY.	NATIVITY.			MIXED BLOOD.	CONJUGAL CONDITION.	CITIZENSHIP.			DWELLINGS.	INSTRUCTIONS FOR FILLING THIS SCHEDULE.
	Is this Indian?	Tribe of Father of this Indian.	Tribe of Mother of this Indian.			Is this Indian taxed?	Year of acquiring citizenship.	Was citizenship acquired by allotment?		
1 Red Elk, No 2	0			0		0			Ind	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

SPECIAL INQUIRIES RELATING TO INDIANS.

OTHER NAME, IF ANY.	NATIVITY.			MIXED BLOOD.	CONJUGAL CONDITION.	CITIZENSHIP.			DWELLINGS.	INSTRUCTIONS FOR FILLING THIS SCHEDULE.
	Tribes of this Indian.	Tribes of father of this Indian.	Tribes of mother of this Indian.			Is this Indian "taxed" (See instructions.)	Year of acquiring citizenship.	Was citizenship acquired by allotment?		
1	White Face	Son	Son	0	20	no			Fixed	<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-234) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	Wicorpi Yanni	Sione	Sione	0	No				Fixed	<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. 1	Mato wakawa	Sioux	Sioux	0	No				Ind	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side, and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	Mala Micaknayan	Sioux	Sioux	0	No				Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R." INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. 1. Latawaga	Sioux	Sioux	Sioux	0	Yes				Ind.	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 38.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." 21	20	31	32	33	34	35	36	37	38	The following instructions apply to columns 29 to 38: COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1, 1/2, 3/4, whichever fraction is nearest the truth. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

21	Randall, Amanda	Siou	Siou	Siou						The following instructions apply to columns 29 to 38: COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 30, 31, and 32, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." 1	Minnie	Siou	Siou	Siou	0	No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age-R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1, 1/2, 3/4, or 5/8, whichever fraction is nearest the truth. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. 1	Ska yuba win	Sioux	Sioux	Sioux	0	No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R." INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{2}$, $\frac{1}{4}$, $\frac{3}{4}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable". If he or she is living in a permanent dwelling of any kind, write "fixed."

1	James John	Sioux	Sioux	Sioux	0	No	Yes			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE
CONTINUED FROM "A" SIDE OF SHEET.

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1/4, 1/2, 3/4, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

1	Crow John	Sioux	Sioux	0	NO	Yes			Ind	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

High Dog Walker	Sioux	Sioux	Sioux	0	No	Yes			Fixed	<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported <i>entirely</i> on this schedule, and every family composed mainly of persons not Indian should be reported <i>entirely</i> on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	Crazy Bull, Felix	Sioux	Sioux	Sioux	0	no	yes		Movable	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 38.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE

CONTINUED FROM "A" SIDE OF SHEET.

The following instructions apply to columns 29 to 38:

COLUMN 29. Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1, 1/8, 1/4, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 to 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, *one* series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1 Braids his Forehead	Sioux	Sioux	Sioux	0	No	No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R." INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

Poor Man	Sioux	Sioux	Sioux	0	No	No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R." INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE

CONTINUED FROM "A" SIDE OF SHEET.

The following instructions apply to columns 29 to 38:
 COLUMN 29. Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

" COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable". If he or she is living in a permanent dwelling of any kind, write "fixed."

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation, and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 38.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of those two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	Flying	Sioux	Sioux	0	No	No	Find	<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-234) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-234) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

21. <u>Abel Noyes John</u>	<u>Shos</u>	<u>Shos</u>	<u>Shos</u>	<u>1/4</u>		<u>No</u>				The following instructions apply to columns 29 to 38: COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1/4, 1/2, 3/4, whichever fraction is nearest the truth. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 38.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

1 Board Eagle Eva	Sionx	Sionx	Sionx	0		No				This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 to 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

(CONTINUED FROM "A" SIDE OF SHEET.)

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{8}$, $\frac{3}{8}$, $\frac{5}{8}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship: in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

CONTINUED FROM "A" SIDE OF SHEET.

The following instructions apply to columns 29 to 38:
COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.
COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.
COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1/4, 1/2, 3/4, or 1, whichever fraction is nearest the truth.
COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.
CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.
COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."
An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."
COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.
COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.
COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

1	1	1	1	0		No				<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{4}$, whichever fraction is nearest the truth. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.
(CONTINUED FROM "A" SIDE OF SHEET.)

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{4}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

In other words, every family composed mainly of Indians should be reported *entirely* on this schedule, and every family composed mainly of persons not Indian should be reported *entirely* on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	Brown, Geo. R.	Sious	(White)	Sious	1/2	No	No		Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R." INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

(CONTINUED FROM "A" SIDE OF SHEET.)

The following instructions apply to columns 29 to 38:
COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1 Kahikuyapi	Sioux	Blackfoot	Sioux	0	No	No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE

(CONTINUED FROM "A" SIDE OF SHEET.)

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{2}$, $\frac{3}{4}$, or $\frac{1}{4}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE

(CONTINUED FROM "A" SIDE OF SHEET.)

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{2}$, $\frac{1}{4}$, $\frac{3}{4}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but add the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each, and of such numbers that the last numbers on the two schedules when added together will correctly give the whole number of families and of families united and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly supporting and partly dependent upon the Government, write the occupation, and then the letter "R" (for Ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.
(CONTINUED FROM "A" SIDE OF SHEET.)

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1, 1/2, 3/4, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

2	Holsclaw, Lucy A.	Sioux	Sioux	1/2	No	No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 28 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be traced through from the beginning to the end of the line on which he is entered, as line 1, line 2, and each inquiry from column 1 to column 38 which applies to the individual case, should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 3:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and occupies a ration, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 14 and 19:

COLUMNS 14 AND 19.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation, and then the letter "R" (for ration). If the Indian is under 18 years of age and receives rations, write "Under age—R."

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." 1	Mahpiga tope	Sioux	Sioux	Sioux	No		Yes			Fixed	<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last number on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—t."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

(CONTINUED FROM "A" SIDE OF SHEET.)

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1, 1/8, 1/4, or 1/2, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

OTHER NAME, IF ANY.	NATIVITY.	MIXED BLOOD.	CONJUGAL CONDITION.	CITIZENSHIP.	DWELLINGS.	INSTRUCTIONS FOR FILLING THIS SCHEDULE.	
1	Barnd	Indian/Indian	Indian/Indian	Indian/Indian	Indian/Indian	<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p>INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

1	Thurmond Hawk	Thurmond Hawk	Thurmond Hawk							This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1, 1/2, 3/4, whichever fraction is nearest the truth. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. 1	Thorn	Pauli Sioux	Pauli Sioux	0	Lo	Lo			Aborable	<p>This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.</p> <p>Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.</p> <p>This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.</p> <p>COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:</p> <p>COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.</p> <p>COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."</p> <p align="right">INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.</p>

SCHEDULE No. 1.—POPULATION—Continued.
SPECIAL INQUIRIES RELATING TO INDIANS.

OTHER NAME, IF ANY.	NATIVITY.			MIXED BLOOD.	CONJUGAL CONDITION.	CITIZENSHIP.			DWELLINGS.	INSTRUCTIONS FOR FILLING THIS SCHEDULE.
	Tribe of this Indian.	Tribe of FATHER of this Indian.	Tribe of MOTHER of this Indian.			Is this Indian taxed? (See instructions.)	Year of acquiring citizenship.	Was citizenship acquired by allotment?		
1	987008	Red Star	Red Star	Red Star		No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

following instructions apply to columns 29 to 38:

IN 29. Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, in English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable". If he or she is living in a permanent dwelling of any kind, write "fixed."

In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

COLUMN 38.—If the Indian is living in a tent, tepee or other temporary structure, write "movable". If he or she is living in a permanent dwelling of any kind, write "fixed."

CONTINUED FROM "A" SIDE OF SHEET.

The following instructions apply to columns 29 to 38:

COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column.

COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32.

COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write 1/2, 3/4, or 1, whichever fraction is nearest the truth.

COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank.

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts.

COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes."

An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank.

COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank.

COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

Little Horse	Siox	Siox	Siox	0	No	No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	Blondray, Louis	Siaux	Siaux	88		No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 38.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 38.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	Bear Horse, John	Siou	Siou	0		No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R." INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side, and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

						Has this Indian any white blood? (If so, how much? (1/2, 3/4, or 5/8)?)	Is this Indian, if married, living in polygamy?	Is this Indian taxed? (See instructions.)	Year of acquiring citizenship.	Was citizenship acquired by allotment?	Is this Indian living in a fixed or in a movable dwelling?	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.			
1	Buffalo King	Sioux	Sioux	Sioux	Fixed	0	No	No				Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.			
2	White Bear	Sioux	Sioux	Sioux	Fixed	0	No	No							
3	Born on Earth	Sioux	Sioux	Sioux	Fixed	0	No	No				This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.			
4	Horse Stampeder	Sioux	Sioux	Sioux	Fixed	0	No	No							
5	White Cow Come Out	Sioux	Sioux	Sioux	Fixed	0	No	No				COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:			
6	But But	Sioux	Sioux	Sioux	Fixed	0	No	No							
7	Pure White	Sioux	Sioux	Sioux	Fixed	0	No	No				COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.			
8	White Bird	Sioux	Sioux	Sioux	Fixed	0	No	No							
9	White All Eyes	Sioux	Sioux	Sioux	Fixed	0	No	No				COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

Sham, Dallas	Pauli Sioux	White	Pauli Sioux	1/2	No	No		Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

21	Old Dog, Nellie	Induagap	Induagap	No		No			Fixed	The following instructions apply to columns 29 to 38: COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{2}$, $\frac{1}{4}$, $\frac{3}{4}$, whichever fraction is nearest the truth. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

1 Yellow, R. H. Joseph	Pauli Sioux	Pauli Sioux	Pauli Sioux	No		No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

21	Colombo, Christopher	B. S. Half Breed	B. S. Half Breed	2		No			Fixed	The following instructions apply to columns 29 to 38: COLUMN 29.—Write the Indian name, if the person has one, in addition to the English name given in column 3. If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 30, 31, AND 32.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 30, 31, and 32. COLUMN 33.—If the Indian has no white blood, write 0. If he or she has white blood, write $\frac{1}{4}$, $\frac{1}{2}$, or $\frac{3}{4}$, whichever fraction is nearest the truth. COLUMN 34.—If the Indian man is living with more than one wife, or if the Indian woman is a plural wife or has more than one husband, write "Yes." If not, write "No." If the Indian is single, leave the column blank. CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship: in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

Kojumak, Fred	White	White	White	3/4		No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will only give the whole number of dwellings and of families visited and only listed in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and is a child, write "Under age—R." INSTRUCTIONS CONTINUED ON "B" SIDE OF SHEET.

If the Indian has only one name, Indian or English, repeat the name in this column. COLUMNS 25, 26, AND 27.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 13, 14, and 15, relating to the state of birth of the person and of his or her parents. In any event secure the name of the tribe with which the person is connected and the name of the tribe of his or her parents, and enter the same in columns 25, 26, and 27. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 33, 34, and 35, in accordance with the facts. COLUMN 30.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 31.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 32.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

CITIZENSHIP.—If the Indian was born in this country, no entry can be made in columns 16, 17, or 18; but for columns 35, 36, and 37 answers must be obtained. If the Indian was born in another country, answers will be made both in columns 16, 17, and 18, and in columns 35, 36, and 37, in accordance with the facts. COLUMN 35.—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and living among white people as an individual, and as such subject to taxation, whether he or she actually pays taxes or not; also if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship; in either of these two cases the answer to this inquiry is "Yes." An Indian on a reservation, without an allotment, or roaming over unsettled territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No." COLUMN 36.—If the Indian was born in tribal relations, but has acquired American citizenship, write the year in which it was acquired. If he or she has not acquired citizenship, leave the column blank. COLUMN 37.—If the Indian acquired citizenship by receiving an allotment of land from the Government, write "Yes." If he or she acquired citizenship by other means, write "No." If he or she has not acquired American citizenship, leave the column blank. COLUMN 38.—If the Indian is living in a tent, tepee, or other temporary structure, write "movable." If he or she is living in a permanent dwelling of any kind, write "fixed."

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19:

COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district.

COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age—R."

1	First, R. B. Claude	W. S. Sioux	Paula Sioux	Yes		No			Fixed	This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations. Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule. This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered. COLUMNS 1 TO 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in relation to filling columns 1, 2, and 19: COLUMNS 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last numbers on the two schedules when added together will correctly give the whole number of dwellings and of families visited and enumerated in your entire district. COLUMN 19.—If the Indian has no occupation and is wholly dependent on the Government for support, write "Ration Indian." If he is partly self-supporting and partly dependent upon the Government, write the occupation and then the letter "R" (for ration). If the Indian is under ten years of age and receives rations, write "Under age - R."

Tom, Mary	Pauli Sioux	White	B.S. half Pauli	3/4		No			Fixed	Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.
Tom, Caroline	Pauli Sioux	B.S. half Pauli	B.S. half Pauli	1/2		No			Fixed	This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of Schedule No. 1 is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 7-224) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this schedule, and every family composed mainly of persons not Indian should be reported entirely on the general population schedule.

This schedule contains on each side twenty horizontal lines, each running twice across the page, and it is consequently possible to enumerate on it only forty persons (twenty persons on the A side and twenty persons on the B side). Each Indian should be carried through from the beginning to the end of the line on which he is entered, as line 1, line 2, etc., and each inquiry from column 1 to column 38 which applies to the individual case should be answered.

Columns 1 to 28.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding columns in the general population schedule, but note the following additional instructions in filling columns 1, 2, and 19:

Column 1 AND 2.—If you are canvassing a given territory with both the general population schedule (Form 7-224) and this schedule for Indian population, make two independent series of numbers for these columns, one for each kind of schedule, so that the last numbers on the two schedules taken together will correctly give the whole number of dwellings and persons visited and enumerated in your entire district.

Column 19.—If the Indian has no occupation and is wholly dependent upon the Government for support, write "Ration Indian." If he is partly self-sustaining and partly dependent upon the Government, write the occupation and the word "ration." If the Indian is under ten years of age, write "Under age—R."
